REQUEST FOR CERTIFICATE OF CORRECTION Address to: Mail Stop Certificate of Correction Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450	Attorney Docket	ADVI 0707-1 (DVSI-5684514)
	First Named Inventor	Hill Branscomb
	Patent Number	5,684,514
	Issue Date	04 November 1997
	Application Number	08/243,046
	Filing Date	16 May 1994
	Customer No.	22470
	Confirmation No.	2003
	TITLE: APPARATUS AND METHOD FOR ASSEMBLING CONTENT ADDRESSABLE VIDEO	

Sir:

Correction of mistakes made by the Patentee and the USPTO is hereby requested for the above identified patent. Enclosed herewith are:

- (1) A proposed certificate of correction describing the proposed corrections to be made;
- (2) Exhibits in support of making the proposed corrections; and
- (3) Payment in the amount of \$100.00 for fees under 37 C.F.R. §1.20(a).

The first mistake to be corrected is in the cross reference to related applications in the specification of the patent. Application no. 08/146,400 is identified as a continuation-in-part of application no. 08/000,927. However, application no. 08/146,400 is a file wrapper continuation of application no. 08/000,927 and therefore should be identified as a continuation application (see Exhibit A, pg. 2, Amendments, Item 5.). The error arose because the filing receipt for application no. 08/146,400 was mistakenly issued to indicate that it was a continuation-in-part application of application no. 08/000,927 (see Exhibit B). This eventually led to application no. 08/243,046, which became patent no. 5,684,514, being erroneously amended to indicate the same (see Exhibit C, pg. 2, Amendments, Item 5.).

The second mistake to be corrected is also in the cross reference to related applications in the specification of the patent. Application no. 08/000,927 is identified as a continuation of application no. 07/460,849. However, application no. 08/000,927 is in fact a continuation-in-part of application no. 07/640,489 and therefore should be identified as such (see Exhibit A, pgs. 1 and 2, amendment of prior application no. 08/000,927 before entry of file wrapper continuation application). The error arose because (1) application no. 08/146,400 was mistakenly amended to refer to application no. 07/460,849 (see Exhibit A, pg. 2, Amendments, Item 5.), and (2) the filing receipt for application no. 08/146,400 was erroneously corrected to indicate that application no. 08/000,927 was a continuation of application no. 07/460,849 (see Exhibit D). Application no. 08/243,046, which became patent no. 5,684,514, was then amended with this error (see Exhibit C, pg. 2, Amendments, Item 5.).

The third mistake to be corrected is in the certificate of correction issued November 6, 2007 which corrected some, but not all, of the priority data on the face of the patent. In that certificate of correction, application no. 08/146,400 is again erroneously identified as a continuation-in-part of application no. 08/000,927. As indicated above, it should instead be identified as a continuation application. The error arose for the same reasons as mentioned above.

The fourth mistake to be corrected is also in the certificate of correction issued November 6, 2007. Application no. 08/000,927 is still identified as a continuation of application no. 07/460,489. However, as discussed earlier, application no. 08/000,927 is a continuation-in-part of application no. 07/640,489. The error arose for the same reasons as mentioned above.

In view of the errors described above, correction is needed. It is therefore requested that the errors be corrected in the manner described in the attached proposed certificate of correction.

Respectfully submitted,

By: /Mark A. Haynes/
